Memo

The establishment of a Municipality at Mudgere was sanctioned in Govt. Pro: No. 2890-1/107 Dated 20th August 1885 but on the recommendation of the Deputy Commissioner it was abolished under orders conveyed in Govt. Pro No. 6228-9/198 Dy 24th February 1886 and the amount in favour of the Municipality credited to Provincial Funds

+ No 677 5-6/215 Dy 1/3/86 (serial no 8)

(20 In his No. 1045 Dated 19th March 1891 the Deputy Commissioner again recommended the reestablishment of the Municipality at that place on the ground of the unsanitary condition of the town and suggested that tax on piece goods might be levied and the whole of the Mohatarfa receipts for the next two preceding years be made over to the Municipality

V

Thereupon an order was passed informing him that his proposal for the reestablishment of a Municipality at Mudgoor would receive consideration if it could be done without the levy of octroi duty.

(3) The Deputy Commr. now submits definite proposals for the re-opening of the Municipality as a tentative measure for two years for the following reasons.

(1) The town of Mudgoor is the head quarter of the Talukdis vesting in importance in point of trade and population & is often visited by European planters

(2) The present Sanitary condition of the town is far from satisfactory.

(3) The inhabitants of the town are desirous of establishing a Municipality

(4) The income of the town to be utilized for Municipal purposes has risen from Rs 699⊕ in 1891-92 to Rs 1211⊕ in 1896

to $\frac{687}{248}$ Dy 21-4-91.

⊕ It is not clear whether the Rs 600 & 7 S 40s entered respectively included in 699 & & 1211 represents moieties or full collection under the head.

(5) The average receipts under Mohatarfa and fees and fines realized in the cattle pound for the past 5 years amount to Rs 1017 and out of which an annual expenditure of Rs 934 is proposed by the Dy Collector leaving a balance of Rs 83

(6) Thus the charges of the Municipality can be met from the income under Mohatarfa and cattle pound without the introduction of octroi

(7) The number of houses in Mudgere is 403 with a population of 1149. There are some Mttees with a population of less than 1000.

Sir, I have the honor to inform you that I lately inspected the Local Fund Dispensaries at Mudgee and Kalsa.

There seems to be scarcity of drinking water in the hot weather at Mudgee, and I think the sinking of one or two additional wells would lessen the hardship to a certain extent.

If any additional well could be sanctioned, I would propose the travellers bungalow Compound as the first best site. The traveller is often

served with drinking water from
the well used, I was told, by the
low Caste people, which is
situated in a low ground by
the side of a tank, below
and at some distance from
the Bungalow. The water
I found was very dirty and
as far as it could be judged
by the naked eye, not fit
for consumption. For Caste
reasons the bungalow servants

The subject of establishing

The Deputy Commissioner
Kadur District

Sir, In obedience to your order no 670 of the 10th November last, regarding the re-establishment of a Municipality in the town of Mudgeri, I respectfully beg to report as follows.

2. Mudgeri was for a small time a Municipal town, the Municipality having been started in 1885 as sanctioned in Government Proceedings No 2890/101 of the 20th August 1885 ~~to 4th Oct 85~~. It was then a small village of no importance although it was the Head Quarters of the Taluk, containing not more than 400 houses within the Municipal limits. The Municipal income was, as shewn below, then Chiefly made up from the rivenue of the house and Such taxes, no Octroi having been sanctioned.

House tax	96-0-0
Shop "	269-0-0
Loom "	4-0-0
Oilmill "	6-0-0
Cart "	34-0-0
Total	409-0-0
Municipal Share	204-8-0

3 The Municipal income as above having been found to be insufficient, the abolition of the Municipality was recommended which was accordingly sanctioned in Government Proceedings No 6228 9/198 of the 4th February 1886

4 Mudgiri though a small place is now rising in importance and has a population of 10440 inhabitants as now ascertained Houses are increasing and the trade is comparatively large The Mohaturfa now realized (1890-91) is as follows.

House tax -

Tiled houses	33	130 " 8 " 0
Thatched "	54	
Shop tax —		347 " 0 " 0
Loom " —		4 " 0 " 0
Oilmill " —		2 " 0 " 0
Cart " —		56 " 00 " 0
Total		539 " 8 " 0

This shows an increase of Rs 130/- over that realized in 1885-86.

Mudgeri is the Centre of trade in this part of the Country, being the nearest place where all provisions are sold and is visited often by European planters. A large weekly bazar is also held here. For these reasons and from a sanitary point of view it is absolutely necessary that the Conservancy of this town should be attended to, and the Civil Surgeon who lately visited the place is also of the same opinion. I therefore respectfully venture to lay before you the urgent necessity which exists for the reopening of the municipality in this town to which the leading men of the place agree.

5. This small town of Mudgere, I submit, deserves attention as it fairs promise of rising. The roads in the town require being improved and dust bins, hand carts to remove the daily sweepings and a few water posts have necessarily to be provided for. A peaveneging establishment of at least three sweepers will be required. The Motor tax now realized amounts to Rs 540/- and if the Establishing of the Municipality be sanctioned, one half of this amount Viz Rs 270 will represent the Municipal income. Considering the immediate Municipal requirements of the town, and the works which will have to be carried out during the next two or three years, this much share, I beg to submit, is for the present inadequate. I therefore respectfully venture to solicit that

2d Sheet:

that, in Consideration of the
urgency of the Works required,
you may be pleased, on recom-
mending the Reestablishment
of the Municipality for Mudgee,
to move the Government to make
over the Government Share of the
Revenue in favour of the
Municipality for the next two
years. The entire income
which may be estimated at
about Rs 600/- a year, will
enable the Municipality to
meet Completely the needful
requirements within that
period and thereafter there
will not be any "item" of
Expenditure except that of
the Conservancy Establishment
and the money of the amount
will be enough to defray the
Cost.

6. I beg to state that at
present Mohurrir is levied
in this town at the rate
fixed for "Kanbas" which is

to me that houses and the shops
Bazar will bear those fixed
for towns &c... ...e doubtless
from the Municipal income
and attempts a revision of
the taxation in these respects
may be necessary I beg
leave to say that the subject
may be reserved for future
consideration

I do not think that
the Municipality can subsist
on the sum of Rs. 270/-.
If the whole of the Mohturfa
be granted plus the duty on
price goods as at Kadur and
other places there will be
an income which may
maintain the Municipality.

An Establishment of -

1	Scavenger at 9 Rs Do	108
1	Wheelbarrow	30
	Public Works. Original + Repairs	200

	Total	622

Note. Mudgeri being Close to Coffee Estates, I do not think that Sweepers and Scavenger Can be secured unless they are well paid

If the Municipality be sanctioned a loan of 300/Rs will have to be made from Local Funds Repayable by an yearly instalment of 100/Rs

Sir,

Adverting to the Government Proceedings no 687 / L. 48 dated 21st April 1891, directing, with reference to the proposal for re-establishment of a municipality at Mudgere, that the introduction of octroi cannot be sanctioned and that if the municipality could be established without introducing octroi but subject to the grant of the Government moiety of the Mohaturfa revenue for 5 years, the proposal would receive consideration, I have the honor to submit for the favorable consideration and orders of Government, Vernacular correspondence and copies of communications noted in the margin re the re-establishment of

abolished in 1886 under the authority of
Government Proceedings No 628-9/198 dated

2 I beg to state that the town of Mud-

is steadily rising in importance in point
of trade and population, that it is the
centre of trade in that part of the
country being the nearest place where
all provisions are sold and is visited

present unsanitary condition of the

the establishment of a municipality,
which can be done now without the
introduction of octroi as directed by
Government, and that the residents
are anxious to have a municipality
reopened there.

3 The enclosed statement submitted
for the information of Government

shows the revenue ——— for the
last 5 years under Mohaturfa and
fees and fines realised in the Cattle
Pound. From a perusal of the state-
ment it will be observed that the
yearly average income under the form-
er is Rs 694/- and under the latter Rs
223/- making a total of Rs 917/ under
both the heads. A sum of Rs 50/ is esti-
mated to be realised as municipal
tax from the nine Government build-
ings which are in the occupation of
Revenue and D. P. W. officials but which
are not charged with Mohaturfa at
present. Rs 30/ is expected to be rea-
lised as tax on private houses hither-
to left free on the ground that they
are occupied by agriculturists. Another
sum of Rs 20/ may be reasonably ex-
pected from the sale of manure. Thus
the total annual income from the
two sources is estimated at Rs 1017/-

2 No 1726 dated 13-4-95 from the Chief Engineer to the Deputy Commr Kadur District

in the margin (herewith returned), I have the honor to forward herewith two statements marked A and B furnished to me by the Amildar. The statement A. shows the receipts during the past 5 years under Mohaturfa and fees and fines realised in the cattle pound Table B is an Estimate of receipts and expenditure framed on the average collections shewn in A. Thus the total annual Mohaturfa and cattle pound collections of the town may be fairly estimated at Rs 984 Should this amount be placed at the disposal of the Municipality fixed

charges on account ——————— of Conservancy Establishment &c would amount to Rs 577/. Then the balance available for town improvements will be Rs 409/. If one-half of this be set apart as reserve fund, the other half, viz: Rs 200/ may be utilised yearly for road repairs &c. Mudgere seems yet to rise in importance as many people have already taken sites to build houses. This may had to the municipal resources of the town

2 At present there are nine Government buildings which are occupied by the officials of P. W. D and Revenue departments including the Amildar's quarters. Rents realised on them amount to Rs 16-8-. per month. No mohaturfa is imposed on them. As the sweepers attached to the Municipality are also expected to attend to the sanitation of the lanes attached to the Official "Agrahar" a sum of Rs 50/ has been estimated as municipal t- to be realised

from

from these houses; plus Rs 30/ on private houses hitherto left free on the ground that they are occupied by agricalturists. The above figure viz Rs 80/. is also taken into calculation in estimating the receipts.

3 During my visit to Mudgere last week, I had the principal residents before me. They all agreed for establishing a Municipality there.

With reference to the above, I have the honor to state that the estimate referred to in the above amounts to Rs 6246 and it is doubtful if latrines and drains, when not looked after, are not worse than useless. There is no Municipality in the village. Sanitary appliances without arrangements for conservancy involve outlay without any corresponding advantages to say the least. In the opinion of the undersigned therefore, the outlay on the proposed drains and latrines is not absolutely necessary, at any rate not till a Municipality could be established there. Under these circumstances it is requested that the question of providing drains and latrines may be held in abeyance for the present

The Deputy Commissioner recommends the re-establishment of a Municipality at Mudgere, as being the Head Quarters of a Taluk with a large trade and population, and a prospective revenue sufficient for its needs without the introduction of octroi. The probable realizations under Mohatarfa, cattle pound and miscellaneous sources are estimated at Rs 1017 and the probable expenditure at Rs 934, per year.

2 Under these circumstances the Government are pleased

to sanction the re-establishment of a Municipality at Mudgee.

3. The names of individuals to be appointed as members of the newly constituted Municipality should be submitted at an early date for sanction, as well as ^ Budget estimates of receipts and expenditure for the year 1896-97. ^ detailed

4. The Deputy Commissioner is requested to state the actual balance in favour of this municipality, that was ordered to be transferred to the Provincial Revenue in Govt order No 6775/215 Dated 14th March 1886.
